## RESEARCH INTERESTS

---

My research interests are in Data Mining, Recommender Systems and Machine Learning. I am fascinated by how to find the valuable knowledge from the abundance of data and further improve human life. Today, the information around us is too much to consume. Motivated by the information explosion, I recently focus on how to filter the information around us and help us to make better choices.

In the field in Machine Learning and Data Mining, the purposes of my Ph.D. programs are (1)developing new mining algorithms, especially graph-based algorithms, (2) designing novel learning models to abstract a complex system, such as probabilistic models, and finally (3)helping people utilize the valuable knowledge to make better decisions in their daily life.

## EDUCATION

---

JUN 2016 Master of Science in COMPUTER SCIENCE  
FEB 2014 **National Cheng Kung University**, Taiwan (R.O.C.)  
Thesis: "Towards Click-Refreshing Recommendation with Instant User Intent"  
Advisor: Prof. Kun-Ta CHUANG and Prof. Vincent S. TSENG  
GPA: 91.12/100

JUN 2013 Bachelor of Science in ELECTRICAL ENGINEERING  
SEP 2009 **National Cheng Kung University**, Taiwan (R.O.C.)  
GPA: 3.71/4.0

FALL 2012 Exchange Semester in ELECTRICAL ENGINEERING  
**Auburn University**, Auburn, Alabama  
GPA: 4.0/4.0

## PUBLICATIONS

---

APR 2017 **Ying-Chun Lin**, Chi-Hsuan Huang, Chu-Cheng Hsieh, Yu-Chen Shu, Kun-Ta Chuang, Monetary Discount Strategies for Real-Time Promotion Campaign, In *Proceedings of the 26th International Conference on World Wide Web* (submitted)

OCT 2016 **Ying-Chun Lin**, Po-An Yang, Yen-Kuan Lee, Kun-Ta Chuang, Generation of Conceptual-Level Text Cloud with Graph Diffusion, In *Proceedings of 28th Conference on Computational Linguistics and Speech Processing* (ROCOLING '16)

MAY 2015 **Ying-Chun Lin**, Cheng-Wei Wu, Vincent S. Tseng, Mining High Utility Itemsets in Big Data, In *Proceedings of the International Pacific-Asia Conference on Knowledge Discovery and Data Mining*, pp.649 - 661. (PAKDD '15)

## AWARDS

---

FEB 2015    **Award of Excellence in the TSMC Big Data Competition**  
Big Data Analytics for Semiconductor Manufacturing

## WORK EXPERIENCE

---

<i>Present</i>	Research Assistant
SEP 2016	<b>National Cheng-Kung University</b> , Taiwan Working on a research project "finding the experts in social network with Dr. Chu-Cheng Hsieh (senior manager in Slice Technologies Inc.) Working on a research problem related to Spatial Query in Virtual Reality with Prof. De-Nian Yang (research fellow in Academia Sinica) Performing research tasks, such as surveying or reviewing papers
Aug 2015	Intern of Software engineering / Search Team
JUL 2015	<b>Yahoo</b> , Taiwan Worked for a project "Search Nearby" in which the search result is adjusted according to the ephemeral needs and location of users
JAN 2014	Research Assistant
AUG 2013	<b>National Cheng-Kung University</b> , Taiwan Studied the topic of how to disseminate messages via mobile P2P network Implemented and maintained the website of PAKDD 2014
Jul 2013	Software Engineer
JAN 2013	<b>MRI Center in National Cheng-Kung University</b> , Taiwan Implemented and maintained the center website

## PROJECTS

---

<i>Present</i>	<b>Slice Technologies Inc.</b> , CA, USA
SEP 2016	Working on a research topic "Finding the experts"
Dec 2014	<b>Industrial Technology Research Institute</b> , Taiwan
JUL 2014	Worked on a research topic "An Efficient Algorithm for On-Shelf Sequential Pattern Mining"

## LANGUAGES

---

CHINESE:    Mother tongue  
ENGLISH:    TOEFL reading:26, listening:28, speaking:23, writing:25

## KEY SKILLS

---

Programming Language:	JAVA, C, C++, PHP, MATLAB, PYTHON, R,
Web Programming:	HTML, CSS, JQUERY
Other:	GIT, L <sup>A</sup> T <sub>E</sub> X
